Professional Summary

Results-driven **Back-End Developer & Java Full Stack** with hands-on experience developing web applications using **Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, MySQL, and React.js**. Strong foundation in **OOP, Data Structures & Algorithms, SQL, MVC architecture, and database management**. Familiar with **Agile/Scrum development practices, Jira, Git, and GitHub** for collaborative software development. Experienced in using **AI-assisted development tools such as Claude, GitHub Copilot, Google Gemini, and Antigravity** for code generation, debugging, documentation, and development productivity. Strong problem-solving mindset with a willingness to learn and adapt to new technologies.

Technical Skills

Programming Languages	Java , SQL, JavaScript , HTML, CSS
Backend Development	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate ORM, JDBC, RESTful Web Services, Microservices Architecture
Frontend Technologies	React.js, Bootstrap, Thymeleaf, JSP, HTML, CSS
Databases	MySQL, RDBMS, SQL, Database Normalization
Developer Tools	Git, GitHub, Bitbucket, Maven, Postman, Eclipse, VS Code, MySQL Workbench
AI-Assisted Development	Claude, GitHub Copilot, Google Gemini, Antigravity – code generation, debugging, documentation, project scaffolding
Core Concepts	OOP, Data Structures & Algorithms (DSA), Multithreading, Exception Handling, Collections Framework, MVC Architecture

Education

Bachelor of Engineering in Electronics and Communication Engineering CGPA: 7.97/10
Government Engineering College (GEC), Chamarajanagar – VTU 2022–2026

Pre-University Course (PUC) – Science Stream 79%
Basaveshwara PU Science College, Bagalkot 2020–2022

Secondary School Leaving Certificate (SSLC) 88%
B.C. Kalthal High School, Kanaur 2020

Professional Experience

Java Full Stack Developer Intern Feb 2026 – May 2026
QSpiders — Test Yantra Software Solutions Bengaluru, India

- Developed Java and Spring Boot web applications using **RESTful APIs, Spring MVC, MySQL, Hibernate, and MVC architecture**.
- Implemented backend business logic, database operations, CRUD functionality, exception handling, and API integration using Java and Spring technologies.
- Worked with **Git, GitHub, and collaborative development practices** while following structured software development workflows.
- Practiced SQL query development, database design, and Hibernate/Spring Data JPA based persistence for relational data management.

Key Projects

Blood Donation & Hospital Request System Jul 2026 – Aug 2026
Technologies: Spring Boot, Spring Security, Twilio SDK, TwiML, Spring Data JPA, Thymeleaf, MySQL, Bootstrap

- Built a full-stack web application connecting hospitals with blood donors to post blood requests, manage donor pledges, and track donation fulfillment statuses using **Claude AI** for code generation and debugging.
- Integrated **Twilio Voice API and TwiML** controllers to enable a seamless Click-to-Call feature directly connecting hospital staff with pledged donors.
- Configured **Spring Security** for role-based authentication and route authorization, ensuring secured endpoints for hospitals and public TwiML webhooks.
- Designed relational entity mappings using **Spring Data JPA and Hibernate ORM** with custom Repository queries.

Student Attendance Management System May 2026 – Jul 2026
Technologies: Spring Boot, Spring Data JPA, Hibernate, Thymeleaf, MySQL, Bootstrap

- Developed a full-stack attendance management system to automate student attendance tracking, student management, attendance history, and monthly attendance reporting.
- Implemented **CRUD operations and One-to-Many entity relationships** using Spring Data JPA and Hibernate ORM.
- Integrated **MultipartFile-based image uploading** for storing and managing student profile photos.
- Implemented attendance percentage calculations and database-driven reports using Java, SQL, and MySQL.
- Designed responsive user interfaces using **Thymeleaf and Bootstrap** and integrated frontend forms with Spring MVC controllers.

AES Cryptography & LSB Steganography Dec 2025 – Mar 2026
Technologies: Java, AES Encryption, LSB Steganography

- Developed a secure communication application combining **AES encryption and LSB steganography** to protect confidential information within digital images.
- Implemented encryption, decryption, data embedding, and data extraction functionality using Java.
- Designed a simple user interface for effortless encryption and decryption workflows.

Certifications

Java Full Stack Development Certification
Java Back-End Development Certification Core Java & SQL Database Management
Spring Boot, Spring Framework, Hibernate & REST APIs

Extracurricular, Leadership & Sports Achievements

- **Agricultural Operations & Farming:** Actively manage hands-on agricultural and farming activities with a strong work ethic.
- **VTU Inter-Collegiate Kabaddi Representative:** Represented GEC Chamarajanagar **thrice** at VTU Kabaddi Championship.
- **VTU Inter-Collegiate Chess Representative:** Represented GEC Chamarajanagar at VTU Chess Championship.
- **Track & Field Athlete:** Active sprint runner competing in sprint events (100m/200m) and relay races.
- **School Sports Achievements:** Represented at District level in Chess and Taluka level in Kabaddi during school.

Soft Skills

- | | |
|---------------------------------------|-----------------------------------|
| • Problem-Solving & Critical Thinking | • Team Collaboration & Leadership |
| • Effective Communication | • Adaptability & Fast Learning |
| • Time Management | |
